

# Multihog<sup>®</sup>

One Machine - One Driver - Endless Applications

### Flail Arm/Boom Arm Mower MBM 400

- The MBM 400 mower arm is a heavy duty mower attachment for the Multihog MH/MX ranges
- The flail mower head is ideal for mowing verges and embankments along the highway
- The arm is equipped with a flail mower head as standard, however other additional accessories are available including sign washer, hedgecutter, weed brush and ditch cleaner
- Features a side-shift of 1.4 metres (4.6 ft)
- Easy operation whilst mowing via joystick located within the operator cabin
- Arm can work on the left and right of the Multihog
- The arm is front-mounted and hydraulically driven
- Flail sizing allows mowing & mulching of heavy reeds & grasses
- Working width from centre of Multihog is up to 5.3 metres (17 ft)
- Clear view during transport - width when folded in front of the Multihog is 2 metres (6.5 ft)
